DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks filed on 23 September 2004 has been entered.

Allowable Subject Matter

2. Claims 7 and 8 are allowed.
3. The following is an examiner's statement of reasons for allowance: In the response filed 23 September 2004, applicant argues that the applied prior art does not teach the ground electrode having a tapered or bell-shaped, frustum-conical passageway, but instead teaches a hollow cylindrical ground electrode with a cylindrical hole which calls for a straight through linear side wall. Applicant's argument is persuasive.
4. Thus, regarding independent claim 7, the prior art of record neither shows or suggests a spark plug comprising, in addition to other limitations of the claim, an elongated conductive body having a horn nozzle, wherein the horn nozzle is circular having a conical inner side wall terminating in a reduced throat diameter and terminating exteriorly with an enlarged mouth of greater diameter than the diameter of the throat diameter, the side wall constituting an open-ended flared frustum-conical passageway having a curved surface in transverse cross-section.
5. Regarding independent claim 8, the prior art of record neither shows or suggests a spark plug comprising, in addition to other limitations of the claim, a ground electrode having a horn nozzle with a frustum-conical passageway defined by a tapered inner wall

leading from a mouth to a throat partially encircling a distal tip of an ignitor electrode, the mouth commencing with a linear annular opening downwardly merging with a bell-shaped side wall.

6. The subject ground electrode having the earlier described configuration is provided for concentrating the fuel/air mixture faster upon ignition. The design is new and unique to the art.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
